FEEDLINE

BULLETIN OF THE CANTON AMATEUR RADIO CLUB
Affiliated with the "American Radio Relay League"

No other hobby, shared by father and son offer the thrill and enjoyment as Amateur Radio. This month we honor just such a team. Weston J. Heiks (K8YLU) and son Robert L. Heiks.

(K8YLU) Bob acquired his ticket first, then succeeded in getting dad interested so he could talk shop. Bob is a sophomore at McKinley High School, Which leads to his second hobby, music, as Bob plays in the McKinley High Band. Other activities, Den Chief of Cub Scouts, President of the Post and sports. Weston the OM, better known as Ike, received his general ticket one year ago following the Lancaster Hamfest. A native of Smithville, coming to Canton in 1936. Ike has been employed 26 years as a motorcycle mechanic for the Harley Davidson Co. Ike and XYL Pauline and Bob with two other children, Bonnie and Barry live at 2122 - 24th Street N.E.

Together Ike and Bob work all bands 80 through 10 with a Viking - 1 a NC-300 and use a TH-3 Hi-Gain beam. Other accessories are a SB-10, Poo keyer and a phone patch to round out the shack. While Ike is content to work state side and rag chew with the local gang, Bob tends to chase DX, with 110 countries worked and about 75 confirmed. You can also hear him on 10 meters occasionally saying, (rook to king 4).

We welcome the Heiks to the ranks of Amateur Radio and may they spend many years together sharing this interest.

Canton Amateur Radio Club, Inc.

VOL 3 APRIL 1962 No. 4

The FEEDLINE is a publication of the Canton Amateur Radio Club, Inc. It is sent free to club members, on an exchange basis with other clubs and to individuals for a donation to cover costs. It is designed to keep members informed of individual and club activities.

Pres-Eugene Arnold W8YAB*

Vice Pres.-Charles Rex K8MZS

Sec/Tr-Henry McLaughlin W8OYV*

Trustees

Nolan Walker W8ADQ

Harold Swihart W8IKM

Rob Roy W8HR*

Shirley Rex K8MZT*

John Edel K8LBZ

Bill Wylie K8AHI

*Members of Amateur Radio Editors Association (AREA). AREA was founded by Harry Tumonds, W8BAH, on August 7, 1961. This organization now has forty five members from coast to coast. The aim of AREA is to improve amateur radio "Public Relations" by its member's writing, talking and photographing amateur radio news. Mr. Tummonds, you may recall, writes "Ham Antenna"---

featured in the Sunday Cleveland Plain Dealer.

Through AREA we hope to improve the FEEDLINE by publishing a better bulletin with the aid of other AREA members.

..... Where to go.....

HAMVENTION, Dayton April 27-28

LANCASTER June 16-17

BREEZESHOOTERS Picnic May 20

C.A.R.C. Picnic.....Aug 19

WARREN, Hamfest.....Aug 25

FINDLAY, Hamfest.....Sept 9

..... Legal Secretary: Any girl over eighteen.

..... When possible, commemorative stamps will be used for FEEDLINE mailing. Save stamps other than general issue and give them to W8NAL--they will be forwarded to the stamp club at Veteran's Hospital at Cleveland.

K3LBZ WINS SECOND GRANT

John Edel, K3LBZ, physics, chemistry and geometry teacher at Tuslaw High School, won a National Science Foundation grant for seven weeks of study at Princeton University, Princeton, N.J.

This is a second award for John. Last summer he received a similar award for study at Franklin and Marshall college in Lancaster, Pa. Congratulations, John. Hope you find someone on the faculty this year that is also a ham!

..... Unless we use them, we may lose them! Many club publications are advocating the use of the higher frequencies for local contacts to help relieve the QRM on lower frequencies.

Plenty of room on 10-6-and 2. Read QST, CQ and 73 editorials and you will know WHY. Use them or lose them. Then cry wolf.

..... Appearances are deceiving---when you see a big house without any plumbing there is usually something behind it!

HAMVENTION by BUS???

WANTED: 37 hamvention goers. Are you interested? Approximate cost is \$5.50. Leave Canton at 3 AM, Arrive Dayton at 9AM.

If interested, call 455-8282; leave your name, address and phone number. Bus will not be chartered for less than 30. For this number the individual cost would be \$6.75

..... Henry Wise, KN3ASI offers for sale: Elmac PMT-8 and AF-68 with power supply, \$275.

Viking I w/ vfo (ex-W8IQT) \$175

NC300 w/6meter conv. \$225

5332 So Main St. Akron 19 TU2-4154

..... Marriage: Just another union that defies management.

A man's most difficult job today is trying to keep the government from taking care of him.

FIELD DAY 1962

June 23-24

Field Day chairman Charles Rex, K8MZS announced at the April 4th meeting that the Sandy Valley Gun Club would be available for a FD site. From Chuck's description, the location promises to be ideal, with many of the conveniences we dreamed about in last month's FEEDLINE. Advance scouts say the location is east of East Sparta and only a hoot and a holler from Mt. Hughes, the QTH of W8GAB and W8FMW. For the benefit of new members, FD operation takes plenty of advance planning.

Your chairman can use your help, so plan for the main event. The operation is usually broken into various committees: Antenna, generator, transportation, food, transmitter, etc. Take your pick and volunteer your services--don't wait to be asked. Score or no score, a successful Field Day depends largely upon the operators and the ability to work together as a team. Scheduling of operators, where more than three or four are involved, is almost impossible. We find that courtesy to relinquish operating position after a reasonable length of time is the best policy. Records fell in everything except the score in 1961. More club members were active, more gear afield, more operators saw service. Is success measured by a high score?

A.R.R.L.

The League is you--the members, and its effectiveness in promoting, protecting and providing for the needs of Amateur radio depends upon the support of every radio amateur. If not a member, consider it--and join through the subscription service of the Canton Amateur Radio Club. With our club membership growing, our percentage of league members must also increase to remain affiliated. BELONG!

QRM-QRM-QRM

Stu, W8ADQ is QCWA # 3011. With W8ADQ, W8NAL, W8HR and W8OYV on the night owl roost of 28.8, here is an opportunity for a CHC'er to pick up a few contacts. Al Frick, one of our new associate members, has a new SX-115. FB, Al --now how about that ticket?

K8TOX is polishing off the panel on a new Invader 2000. Frank now lives in Elyria--so what gives, General????

W8FSM is fussing over a new TA-33 Jr--hopes to have it up in a few days.

Congradulations to Mr and Mrs Ray Hoyle, W8UNE on the new harmonic--a boy, I think? By the way, Ray also has a new tri-band beam. How can one get a stork to deliver a combination package like that?

K8MZT and K8VWW attended the first anniversary party of the Buckeye Belles at Worthington. Shirley, K8MZT is editor of the Buckeye Burr, a YL publication. Ginny, K8VWW, is now assistant or co-editor to Shirley in publishing the Burr.

K8NSL active again with a Cheyenne and Comanche.

A new call, WA8DOA, Richard Price. FB dick-and hope your daughter gets that ticket before too long. After the regular meeting on Apr 4th, a birthday surprise, in honor of Charles Rex K8MZS (age ??) was given by the refreshment committee.

A man took his son to an exclusive restaurant. The youngster was so impressed by his surroundings, he hardly touched his big steak. So Dad asked the waiter to put it in a bag for the dog. "Oh Boy" said the boy, "We gonna get a dog!"
